

CLIZIA
BY ADRIANO RACHELE

NEW CLIZIA TABLE

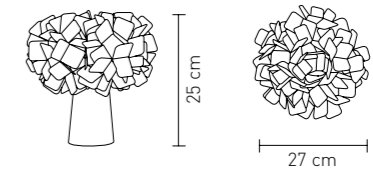

The Clizia series, which consists of colored interlocked squares in Opalflex® assembled manually, evokes the story of the mythological nymph who, repudiated by the Sun, becomes Elitropio. This range, fruit of operative hands that shape the techno polymer as if it were smooth silk, expands with an unusual and striking table version (consisting of 230 square in Lentiflex® supported by a colored base) and with MINI and LARGE versions of the ceiling/wall lamp and suspension. The various colors and many different types available will suit any room of the house, introducing the surprise of a soft geometric shape that seems created in a maison d'haute couture.

NEW CLIZIA design by Adriano Rachele
